DELAWARE DEPARTMENT OF CORRECTION
BUREAU OF PRISONS

INITIAL CLASSIFICATION AND RECLASSIFICATION FORMS

GENERAL INSTRUCTIONS:

1. Examine all available documentation in the offender's institutional file and/or information contained in electronic data sources (i.e. DACS, DELJIS), such as the vital statistics sheet, status sheet, commitment/sentencing order and/or criminal history, disciplinary record, etc. to assist in the completion of each form.

   NOTE: A criminal history report from DELJIS should be included in the offenders' institutional files. Each institution will determine staff responsible for printing the report.

2. Enter the highest applicable point value in the data field provided to the right of each item. Where numerical reporting is required and information is missing or is not available, "**unk**". Do not enter a "zero" to indicate missing information. Enter a "zero" only when it corresponds to the appropriate item category. Do not leave blank spaces.

3. Each item provides a secondary data field to record specific information. Enter the requested information in the space provided. Make further clarifying remarks in the comments section as needed.

4. Add the scores across the items and enter the total point value for the offender in the designated box.

PLEASE NOTE: This manual is intended to provide instruction and assistance in the completion of the objective (point-based) classification assessment tool and related forms. General and specific classification policies, procedures, criteria, etc. are maintained in the Bureau of Prisons Procedure Manual. Staff should utilize those documents in conjunction with the point-based assessment tool. Some sections of the Bureau of Prisons Procedure Manual related to classification include:

BOP 2.1	Temporary Release
BOP 2.31	Transfers/Waiting Lists
BOP 3.3	Classification
BOP 3.4	Range of Services
BOP 3.9	Boot Camp Eligibility
BOP 3.13	Interstate Corrections Compact

INITIAL CLASSIFICATION FORM

I. INITIAL CLASSIFICATION FORM (ICF)

A. PURPOSE

The Initial Classification Form (ICF) establishes an offender's recommended classification rating upon her/his commitment to the custody of the Delaware Department of Correction. This rating is based on seven items that are scored on a numerical scale. These items have been found to be associated with future institutional conduct and, thus, help to identify the type and level of risk likely to be presented by the offender. The security level recommendation derived from these items, together with the assessment of the offender's needs is used to make decisions relating to the offender's housing assignment, program needs, and supervision requirements. The security level recommendation may be overridden upon consideration of specific aggravating or mitigating factors that warrant special attention or intervention by staff.

The ICF is gender specific, with a different form for female and male offenders.
(Copies of forms are included with this manual)

B. COMPLETION POLICY

The ICF should be completed on newly sentenced offenders within 5 to 15 days of sentence calculation. It is understood that various factors could necessitate a delay in completion during this time frame. Ideally, the initial classification process should be completed before an offender is moved from the institution's admission/orientation/pretrial area.

C. INSTRUCTIONS

IDENTIFICATION

OFFENDER NAME: Enter the offender's full legal name, i.e., last name followed by first name and middle initial.

DOB: Enter the offender Date of Birth by month, day, and year.

DATE: Enter the date that the classification document was completed

AKA: Enter any nicknames or aliases used by the offender.

SBI#: Enter the offender's State Bureau of Identification number. This number must be used on all subsequent classification forms.

SS#: Enter the offender's 9-digit Social Security Number.

CURRENT/LEAD OFFENSE: Enter the most serious Delaware offense for which the offender is sentenced and admitted to the DOC. If the sentence is for parole/ probation violation, enter the underlying original offense for which the offender was adjudicated. The entry should read: "Robbery 1st (VOPA)" or "Theft (VOPB)."

TOTAL # CHARGES: If the offender is incarcerated for more than the one current offense, note the total number in the line provided. If the offender is a parole or probation violator, enter the total number of underlying offenses on which the offender was sentenced.

SENTENCE LENGTH: Enter the current total sentence in the space provided. This is the sum of all current, consecutive, and overlapping sentences.

EFF DATE: Enter the month, day and year the offender's sentence began.

ADJD (Adjusted Release Date): Enter the most recent month, day and year the offender's sentence will end.

PED (Parole Eligibility Date) Enter the month, day, and year of the offender's earliest or next parole eligibility, if applicable. If the date has passed and no Parole hearing has been conducted, enter "past" rather than a date. If the Parole Board has indicated that the offender will not be given further consideration, enter "no rehearing," in lieu of a date.

TIS (Truth in Sentencing)/ Non-TIS: Check as applicable.

RISK ASSESSMENT

Intended to identify the offender who presents a serious risk to the safety, security and orderly operation of the institution.

a. SEVERITY OF CURRENT OFFENSE: (*see Appendix A*) Considering all current and consecutive Level 5 Delaware sentences, determine **the most serious conviction** for which the offender is currently incarcerated. If the offender is incarcerated for attempt to commit an offense; conspiracy and/or violation of probation/parole, the severity of the current offense is based on the companion or underlying offense. In the case of offenders serving only an out-of-state sentence in Delaware prison under the Interstate Corrections Compact, rate the severity of the current offense to the best equivalent Delaware charge(s).

Note: List in the secondary data field Level 5 companion convictions (these are current, but less severe convictions for which the offender has been incarcerated). Also list in the secondary data field out-of -state convictions for which an offender is currently serving a sentence (excluding Interstate Compact offenders as referenced above). **DO NOT SCORE, this section is for information purposes only**.

Examples:

(1) If the offender is serving sentences for Assault 2nd and Burglary 2nd, score the Assault 2nd and list the Burglary 2nd in the secondary Companion Convictions field.

(2) If the offender is serving time for Attempt Rape 4th, the severity rating would be the same as that for Rape 4th

(3) If the offender is serving a sentence for Conspiracy 2nd related to his/her role in a drug Trafficking crime, the severity is rated based on the Trafficking charge. The entry should read: Conspiracy 2nd (Trafficking). Please note that the most serious underlying **conviction** that accompanies the Conspiracy 2nd. If Conspiracy 2nd is the only conviction then use the most serious offense that accompanied the Conspiracy 2nd.

(4) If the offender is serving sentences for Robbery 1st (VOPB) and a new charge of PWITD, the VOPB is scored based on the severity of the underlying offense. List the PWITD in the secondary companion convictions field.

(5) An offender is serving a Delaware sentence for Theft and a concurrent out-of-state sentence for Aggravated Assault; score the Theft and list the out-of-state offense in the secondary companion convictions field.

Enter the number of points associated with the offense:

Enter **1** if the Current/Lead Offense is rated **Low** severity

Enter **3** if the Current/Lead Offense is rated **Moderate** severity

Enter **5** if the Current/Lead Offense is rated **High** severity

Enter **7** if the Current/Lead Offense is rated **Highest** severity

b. ESCAPE HISTORY: Consider the offender's documented and verifiable walk-offs, escapes and attempted escapes, including current conviction where applicable. Enter the type of escape and date of occurrence in the secondary data field **NOTE:** Date is defined as date of occurrence, not the date of any arrest or conviction if applicable.

Enter **0** if the offender has no history of walk-off, escape or attempted escape

Enter **2** if the offender has had verified walk-off(s) from work release, furlough, DPC, community and/or outside job assignment, courtroom, police authority (city, state, military, etc.), during the three (3) calendar years prior to the date of the initial classification

Enter **3** if the offender has had verified attempted escape(s) from a secure correctional institution (or secured DOC transport) during the five (5) calendar years prior to the date of the initial classification or attempted escape(s) from a secure correctional institution more than ten years prior to the date of the initial classification.

Enter **7** if the offender has had verified escape(s) from a secure correctional institution (or secured DOC transport) within ten years prior to the date of the initial classification.

c. CURRENT AGE: Calculate the current age (in years) of the offender on the date of the initial classification assessment. **Do not round up or down.** Enter the offender's current age in the secondary data field provided.

Enter **0** if the offender is 46 years or older.

Enter **1** if the offender is between 31 and 45.99 years of age.

Enter **2** if the offender is between 25 and 30.99 years of age

Enter **3** if the offender is less than 25 years of age.

d. PRIOR CRIMINAL HISTORY IN THE LAST TEN YEARS:*(see Appendix A)*
Count the number of **felony** convictions against the offender during the ten (10) calendar years prior to the current admission date to the DOC. Assess date based on the date the crime occurred, not the date of the conviction. Exclude the current convictions and convictions as a juvenile **unless the offender was tried and convicted as an adult.** **Note:** Out-of-state charges are not counted or scored, as we usually do not have sufficient information to determine the equivalent crime/behavior described in Delaware Code. However, the significance of out-of-state criminal history should be appropriately noted in the comments and factored into the final recommendation.

Enter **0** if the offender has no prior felony conviction in the last ten years.

Enter **1** if the offender has only one felony conviction.

Enter **2** if the offender has 2 or 3 felony convictions.

Enter **3** if the offender has 4 or more prior felony convictions.

e. SEVERITY OF CRIMINAL HISTORY IN THE LAST 10 YEARS: (*see Appendix A*) Consider all Delaware felony convictions against the offender during the ten (10) calendar years prior to the current admission date to DOC. Assess date based on the date the crime occurred, not the date of the conviction. Exclude current convictions and convictions as a juvenile **unless the offender was tried and convicted as an adult**. **Note:** Out-of-state charges are not scored, as we usually do not have sufficient information to determine the equivalent crime/behavior described in Delaware Code. However, the significance of out-of-state criminal history should be appropriately noted in the comments and factored into the final recommendation.

Enter **0** if the offender has no prior felony conviction

Enter **1** if the prior conviction is rated **Low** severity

Enter **2** if the prior conviction is rated **Moderate** severity

Enter **4** if the prior conviction is rated **High** severity

Enter **5** if the prior conviction is rated **Highest** severity

f. INSTITUTIONAL MISCONDUCT HISTORY: (*see Appendix B*) A history of institutional misconduct is an important consideration in assessing the degree of supervision required to manage an offender. It should be noted that the violation for which the offender is sanctioned does not always reflect what took place. Therefore, available reports should be reviewed and the underlying behavior considered when determining whether to score as predatory or non-predatory in any instance where it is optional.

Consider all Major/Class 1institutional misconduct convictions during the five (5) calendar years prior to the date of the initial classification. Assess date based on the date the behavior occurred, not the date of the hearing or guilty finding. Known and verified disciplinary convictions received by offenders while housed out of State should be rated to the extent possible when clearly equivalent to Delaware Penal Code violations. Otherwise, they should be noted in the comments and considered in the final recommendation so as not to disregard the behavior. **Do not** include pending disciplinary actions, Minor/Class 2 write-ups (even if the sanction was upgraded equivalent to a Major/Class 1), reports on which the offender was found not guilty or guilty findings that were subsequently overturned through appeal.

Enter the name of the most serious institutional Major/Class 1, and the actual number of Class 1 convictions during the past 5 years, and during the first 6 months of the current incarceration in the secondary data fields. Enter the points associated with the most severe Major/Class 1 disciplinary guilty finding:

Enter **0** if the offender has no Major/Class 1 disciplinary guilty findings.

Enter **5** if the offender has a Major/Class 1 **Non-Predatory** guilty finding.

Enter **7** if the offender has a Major/Class1 **Predatory/Assaultive** guilty finding.

g. TIME REMAINING ON SENTENCE: Consider the actual amount of time remaining to release date for all combined sentences. **Do not use Parole Eligibility dates.**

Special Note: For indefinite sentences or those suspended upon completion of a specified program, use program time parameters listed here.

Transitions	24 months
KEY	18 months
Greentree	6 to 18 months
TEMPO	less than 12 months
Reflections	Less than 6 months

Enter the points associated with the appropriate time frame:

Enter **0** if the offender has less than 12 months remaining.

Enter **1** if the offender has 12 to less than 24 months remaining to serve

Enter **2** if the offender has 24 to less than 60 months remaining to serve

Enter **3** if the offender has 60 to less than 120 months remaining to serve

Enter **4** if the offender has 120 or more months remaining to serve.

Enter **6** if the offender received a life sentence or is sentenced to death.

RISK ASSESSMENT SCORE

Add the points for Items a. through g., and enter the total in the box designated "Risk Assessment Score."

Preliminary Security Level. Check the security level designated by the Risk Assessment Score (i.e., Minimum, Medium or Maximum), utilizing the Risk Assessment Scale below:

Risk Assessment Scale:	(males)	(females)
Minimum	8 points or less	10 or less
Medium	9 to 16 points	11 to 18
Maximum	17 or more points	19 or more points

OVERRIDE FACTORS

Overrides identify issues or factors that support an increase or decrease in the security level assignment indicated by the risk score. Mandatory overrides **must** be applied in all cases that meet the stated override criteria. Discretionary overrides may be used when, in the professional judgment of staff, the factors cited indicate that the assigned Risk Assessment Score and resulting security level does not adequately assess the offender.

Once the preliminary security score has been computed, a mandatory policy or discretionary override shall be initiated, if warranted. All overrides require specific, written justification for their use and justification is to be documented in the space provided.

"Double overrides" (increase or decrease by more than one level) are not permitted.

Mandatory Policy Overrides (MPO):

- **Prior escape(s):** Documented information reveals serious escapes and/or attempted escapes from within the secured confines of a correctional institution, or from DOC staff and/or vehicle while in secured transit, ***within a five (5) year period preceding the current classification***. Criminal charges would likely be associated with these escapes, but criminal charges and/or conviction are not required to verify the escape activity and apply this override. Escape behaviors addressed through the disciplinary process do not normally fall into this category, unless reports clearly indicate some degree of freedom did occur, or

serious and significant planning and activity had taken place to gain freedom. This override also does not apply to walk offs from community placements or outside job assignments.
Note: Use of this override mandates a Maximum security placement

- **Prior staff assault(s):** Documented information reveals offender has previously assaulted institutional staff through intentional, serious physical contact ***within a two (2) year period preceding the current classification***. Assault may include use of a weapon, intentional use of body parts or bodily fluids. Injury need not have occurred but intent to inflict bodily harm must be evident.
Note: Use of this override mandates a Maximum security placement

- **240 or more months remaining to serve:** Offender has served less that ten (10) years ***and*** offender release date is equal to or greater than 240 months. This includes Life and Death sentences.
Note: Use of this override mandates a placement no lower than Medium

- **Offense is rated Highest Severity:** Offender has served less than ten (10) years ***and*** offender is incarcerated for an offense identified as Highest Severity in the Offense Severity Index (appendix A)
Note: Use of this override mandates a placement no lower than Medium

- **Bail of $50,000 or more:** Offender has additional pending criminal charge(s) and is held in default of $50,000 or more. This includes offenders held without bail for non-bailable offenses (e.g. Murder 1st) and offenders held without bail after conviction, while pending sentencing. **Do not** include offenders held without bail for VOParole and/or VOProbation.
Note: Use of this override mandates a placement no lower than Medium

Discretionary Overrides **(increase level)**

- **Pattern of assaultive/predatory behavior in institutions and/or the community.** Evidence in criminal and/or institutional record reveals consistent and repetitive violent/aggressive/assaultive behavior carried out over an extended period of time. This override should be considered when the identified pattern is not adequately captured in the scored categories of the objective tool.

- **Documented membership in Security Threat Group.** Offender is identified as an active member of a gang, political, or religious group that poses a security threat to the institution.

- **Protective custody/Need for separation.** Offender requires protective custody or separation to ensure her or his safety and well being. The offender may, for example, be a current or former witness against another offender, homosexual, known informant, high profile or notorious offender, have known enemies in the facility, have a thin/frail appearance, or an unresolved language barrier.

- **Pending disciplinary action.** Offender is under investigation for one or more Major/Class 1 institutional disciplinary violations that could result in placement into a higher security level.

- **Mental/Medical issues:** Offender has been examined by mental health and/or medical staff who have advised that offender constitutes a danger to self and/or others or may be at risk and therefore requires increased security level and supervision.

- **Detainers; Open Charges:** Consider the nature and number of pending charges/Detainers and/or the realistic potential for additional time

- **Other:** Utilize for extraordinary issues/concerns not adequately covered in other override areas or scored factors.

__Discretionary Overrides__ **(decrease level)**

- **Time remaining to serve:** Offender has a brief time remaining to serve (i.e. 6 months or less) and a reduced security level is adequate to maintain offender for the limited time. A review of offender disciplinary history should support this override.
- **Need for transition:** Offender is nearing the end of sentence and could benefit from programming and phasing that a reduced security level may offer
- **Active in multiple programs:** Utilize this override to recognize exemplary involvement in multiple programs and reduced risk associated with program activity
- **Other:** Utilize for extraordinary issues/concerns not adequately covered in other override areas or scored factors.

NOTE: A Discretionary Override can never be used to reduce security level placement required by a Mandatory Policy Override.

__RECOMMENDED SECURITY LEVEL__

After reviewing the scale total score and information that may justify an override, mark the recommended security level. If no override is recommended, the security level will be the same as indicated by the scale. This section must be *signed* and *dated* by the correctional worker that completed the form. Comments, impressions, summaries, etc. should be included in the space provided.

__SUPERVISOR SIGNATURE AND COMMENTS__

This section should be *signed* and *dated* by the classification officer or unit supervisor, and additional comments may be added.

Incident Location: Bldg.23 B Tier

Location Description: Bldg 23 BU6

Sexual Allegation:

Location Category:

Violated Conditions: 1.02/200.201 Assault
1.13 Fighting
2.03/200.106 Creating a Health, Safety or Fire Hazard
2.06/200.108 Failing to Obey an Order

Description of Incident:

On Thursday February 23, 2012 at 1230hrs, I Officer Janusiewicz, James was on C- tier with Sgt. Kemp, Ernest and Officer Russell, Jason letting the inmates out for chow. When we exited the tier, I heard a loud, continuous banging on B- tier. Once we entered Bravo tier the banging stopped. We were signaled by several inmates that it was coming from the upper tier. When we got to Cell Upper 6, I observed blood splatter on the cell door window with Inmate Cohee, Daniel #00470221 standing at the sink with several small cuts to his face and a deep laceration to his right hand with blood covering his clothes and inmate Struman, Pernell crouched down in the corner of the cell by the window with blood on his shirt and pants. The walls, floor, desk, and sink/toilet were covered with blood. Officer Russell raidoed the control pod to call a Code 8. Officer Russel ordered inmate Cohee to back up to the door to be cuffed and removed him from the cell. Inmate Cohee was secured in the Upper shower 1. Inmate Struman was then instructed to back up to the door to be cuffed and was escorted to the B-tier Interview room. BU6 cell was secured. At this time, Inmate Struman was searched and did not find a weapon but noticed blood on his hands and cuts on his right hand. Inmate was then shackled to the table. I then exited the tier and began my report while responders stood by. --EOR--

Description of Incident:

On Thursday February 23, 2012 at 1230hrs, I Sgt. Ernest Kemp with Officer Jason Russell and Officer James Janusiewicz were letting inmates out to go to chowfrom C- Tier. When we exited the tier, We heard a loud, continuous banging Coming from B tier. As we entered B tier the banging stopped. We were signaled by multiple inmates that it was coming from the upper cells. As I came to Cell Upper 6, I observed blood splatter on the cell door window with Inmate Cohee, Daniel #00470221 standing at the sink with multiple small lacerations to his face and a deep laceration to his right hand with blood covering his clothes and inmate Struman, Pernell crouched down beside the lockers with blood on his shirt and pants. The walls, floor,door, cell table, and sink/toilet were covered with blood.Officer Russell radioed to the control pod to call a Code 8. To preserve the crime scene We instructed Inmate Cohee to back up to the door to be cuffed and removed from the cell. Inmate Cohee was secured in the Upper shower 1 and was instructed to not remove his clothing or wash his wounds in the shower. Inmate Struman was then instructed to back up to the door to be cuffed and was escorted to the B-tier Interview room. BU6 cell was secured. At this time, Officer Russell stripped Inmate Struman and did not find a weapon but noticed blood on his hands and cuts on his right hand. Inmate was then shackled to the table. Officer Russell then asked Inmate Struman where the weapon was and he stated "I don't know what your talking about". I then exited the tier and began my report while responders stood by. --EOR--

Description of Incident:
On the above date and time I k-9 Scott Nichols responded to a code 8 in mhu 23. Once i entered the bldg I proceded to B tier. As I came around the corner I saw that Lt. Glick was down at nurses station taking care of one 15. The Bldg staff was entering B tier to secure the second inmate. I proceded on to the tier with Bldg staff and backed them up while the 15 was cuffed and shackled in interview room. Inmate was secured. I went off tier and spoke with Lt. Glick to see if there was anything further. Lt. Glick informed me it was under control and I could leave at that time.

Description of Incident:

On Thursday February 23, 2012 at 1230hrs, I Officer Jason Russell was on Charlie tier with Sgt. Ernest Kemp and Officer James Janusiewicz letting the inmates out to go to chow. When we exited the tier, I heard a loud, continuous banging on Bravo tier. As we entered Bravo tier the banging stopped. I was signaled by multiple inmates that it was coming from the uppers. As I came to Cell Upper 6, I observed blood splatter on the cell door window with Inmate Cohen, Daniel #00470221 standing at the sink with multiple small lacerations to his face and a deep laceration to his right hand with blood covering his clothes and inmate Struman, Pernell crouched down beside the lockers with blood on his shirt and pants. The walls, floor, cell table, and sink/toilet were covered with blood. I radioed to the control pod to call a Code 8. To preserve the crime scene I instructed Inmate Cohen to back up to the door to be cuffed and removed from the cell. Inmate Cohen was secured in the Upper shower 1 and was instructed to not remove his clothing or wash his wounds in the shower. Inmate Struman was then instructed to back up to the door to be cuffed and was escorted to the Bravo Interview room. BU6 cell was secured. At this time, I stripped Inmate Struman and did not find a weapon but noticed blood on his hands and cuts on his right hand. Inmate was then shackled to the table. I then asked Inmate Struman were the weapon was and he stated "I don¿t know what your talking about". I then exited the tier and began my report while responders stood by. --EOR--

Approval Information

X **Approved** ☐ **Disapproved** **Date:** 02/23/2012 **Approved by:** Glick, Lisa L (Staff Lt./Lt)

Comments: I, Lt. Glick, interviewed both inmates involved: Inmate Daniel Cohee # 00470221 and Inmate Pernell Struman # . Inmate Cohee received several lacerations and scratches to his facial area (left and right cheeks, left neck area, and his nose bridge). Inmate Cohee received a large gaping laceration on his left upper hand. Inmate Struman received small scratches to his right side facial (eye area) and on his upper and inner right hand. Inmate Struman's left eye was red (bloodshot) and his neck (left side) had some red areas. Inmate Cohee stated that his cellmate (Struman) became agitated and attacked him (Cohee), slicing him (Cohee) with what he believed was a razor blade. Inmate Cohee stated that he does not know why Inmate Struman attacked him, but believed that it may have been caused by comments made by other inmates on the tier. Inmate Cohee stated that Inmate Struman flushed whatever weapon he was using down the toilet.

Inmate Struman stated that he does not know what happened, and denies that that he assaulted Inmate Cohee or that he had possession of a weapon of any kind.

Inmate Struman was transferred to SHU 18 CU7 ISO on pre-hearing detention. Inmate Cohee was transported via Primecare to Kent General Hospital for treatment of his injuries. I , Lt. Glick, took several digital photographs of both inmate's injuries and several digital photographs of cell BU6, prior to securing it as a crime scene.

EXHIBIT G

DEPARTMENT OF CORRECTION
INVESTIGATION REPORT
Internal Affairs

February 24, 2012

Warden Phelps,

I have conducted an investigation into the criminal assault between inmate Cohee, Daniel # 470221 MH23 BU6B and inmate Struman, Purnell # MH23 BU6T. On February 23, 2012 at approximately 1230 hrs, inmate Struman and inmate Cohee were locked into their respective cell after the commencing of chow. At some point a verbal argument started between these inmates, and inmate Struman produced a razor blade, and proceeded to cut inmate Cohee, causing severe lacerations to his face and hands. Both inmates were separated, secured using handcuffs, and escorted from the area. Inmate Cohee was initially attended to by medical staff here at the Institution, and then was sent out by Prime Care ambulance service to KGH, to have his lacerations sutured. Inmate Cohee was returned to the Institution and housed in the DINF D233. Inmate Struman was also seen by medical and cleared for isolation, inmate Struman is currently housed in SH18 CL7 for Pre Hearing Detention.

I have interviewed inmate Cohee about this incident and his possible intentions for pressing charges against inmate Struman. Inmate Cohee stated that "We were both walking back from chow, and some inmates were making fun of Struman, I laughed it off, and Struman thought I was laughing with them. We were both locked into our cell and Struman jumped in his bunk with his legs hanging over the rail. Struman asked if I though that shit was funny, and I told him no, and that I was just trying to laugh it off, so that they would leave you alone. Struman then got quiet and had kind of a dazed look. I turned around towards the mirror, and that's when he jumped off the bunk, and started to slash at me with a razor wrapped in cardboard. He initially cut me on the face, and when I tried to protect myself, is when he started trying to cut at my throat. He sliced both sides of my face and my hand. I pushed him away after a brief struggle, and that's when he noticed all the blood and backed away. It wasn't long after that, is when the Officers came on the tier and pulled us out from the cell"**. I questioned inmate Cohee if he wanted to press charges? Inmate Cohee stated initially** "No, but I know he has life without parole, so he wouldn't get anymore time, and it wouldn't be worth the hassle". **I stated to inmate Cohee, that it was his choice to pursue charges, and that it wouldn't matter about inmate Struman's previous charges or sentence.**

(Cohee Interview Cont.)

Inmate Cohee thought about the incident for a minute and then stated "You know what he needs to pay for this, and I don't want to see someone else get hurt being around him. Yes I want to put charges on him". I asked if he had any other information that he wanted to share about this incident. Inmate Cohee stated "No".

I have also interviewed inmate Struman about this incident, and questioned him about his involvement and the injuries that inmate Cohee received. Inmate Struman stated, "I don't remember what happened, I blacked out. I remember coming back from chow, being locked in, and jumping up on my bunk. I remember having an argument with my cellie, but I don't remember fighting with him". I questioned inmate Struman about the weapon he used, or if he had a razor at any point. Inmate Struman stated "I never had a razor or had any reason to keep a razor. I would not have intentionally tried to cut or hurt someone. I remember that I was pushed backwards and that is when I noticed that the cell was covered in blood. I also noticed that my cellie was bleeding from several cuts on his face and hand. I asked what happened, and my cellie said I did it. I don't remember or believe that I caused the injuries to him". I further questioned inmate Struman about his history and he stated "I am currently being treated for mental disorders and sleep disorders. I am also taking medications for my problems, but for some reason my medication haven't been renewed. I have been taking Rispodol, Paxil, and Zoloft. I am waiting for Mental Health to renew my prescriptions". I questioned this inmate if he wanted to add any other information or make any other statements. Inmate Struman just asked if his cellie was going to be o.k.

As of today's date the cell has been cleared for use. I have taken various pictures of the cell and injuries. I have informed bldg staff to inventory all property and send to the property room. The room has been cleaned by the Bio-Hazard Crew from W-Bldg.

Grand Jury Synopsls

Defendant: Struman, Pernell # (D.O.B)

Victim: Cohee, Daniel #00470221 (D.O.B 05/06/82)

Summary:

On February 23, 2012 at approximately 1230 hrs, both inmate Struman and inmate Cohee were locked into their assigned cell after the feeding of lunch. An argument ensued inside the cell between both parties about an incident that occurred at lunch. At some point during this argument, inmate Struman produced an open razor blade, proceeded to slash at inmate Cohee, resulting in severe lacerations to inmate Cohee's face and hand. Staff were notified of this incident and responded to the tier, to separate and secure both inmates. Inmate Cohee received several lacerations to his face, and one severe laceration to his right hand. Inmate Cohee was seen by onboard medical staff, which made a decision based on the wounds received, that he be sent to a medical facility, to have these wounds treated. Inmate Cohee was treated for his wounds and returned to the Institution within several hours of this incident.

Cohee, Daniel Statement:

"We were both walking back from chow, and some inmates were making fun of Struman, I laughed it off, and Struman thought I was laughing with them. We were both locked into our cell and Struman jumped in his bunk with his legs hanging over the rail. Struman asked if I though that shit was funny, and I told him no, and that I was just trying to laugh it off, so that they would leave you alone. Struman then got quiet and had kind of a dazed look. I turned around towards the mirror, and that's when he jumped off the bunk, and started to slash at me with a razor wrapped in cardboard. He initially cut me on the face, and when I tried to protect myself, is when he started trying to cut at my throat. He sliced both sides of my face and my hand. I pushed him away after a brief struggle, and that's when he noticed all the blood and backed away. It wasn't long after that, is when the Officers came on the tier and pulled us out from the cell".

Struman, Pernell Statement:

"I don't remember what happened, I blacked out. I remember coming back from chow, being locked in, and jumping up on my bunk. I remember having an argument with my cellie, but I don't remember fighting with him". **I questioned inmate Struman about the weapon he used, or if he had a razor at any point. Inmate Struman stated** "I never had a razor or had any reason to keep a razor. I would not have intentionally tried to cut or hurt someone. I remember that I was pushed backwards and that is when I noticed that the cell was covered in blood. I also noticed that my cellie was bleeding from several cuts on his face and hand. I asked what happened, and my cellie said I did it. I don't remember or believe that I caused the injuries to him"

The above summary and statements are true and factual to the best of my knowledge. This information was gathered through an official investigation that was conducted by Lt. Stanley Baynard of the Internal Investigations Department.
